CLICKART: EFFECTS

from T/Maker Graphics Company

ClickArt: Effects is a MacPaint desk accessory that allows you to rotate, slant, distort, or add perspective to a selected image. Rotate an image 360 degrees in one degree increments, slant it right, left up, or down; distort an image by pulling one or more edges away from the center. All functions are available from the Accessories menu while you are using MacPaint.

Macintosh Software

AIRBORNE

from Silicon Beach Software

Armed only with an anti-aircraft gun and mortar, you alone defend your feeble position on the beach from relentless waves of enemy paratroopers, tanks, and screaming fighter jets armed with deadly accurate air to ground guided missiles. ACTION PACKED from the word go with realistic sound effects featuring actual recorded sounds, the only question is: How long can you hold them off? Mac animation at its best.

SUG. RETAIL	\$34.95
SHIP. WT.	8 OZ.

MACBOOSTER

from Mainstay

Put an end to the watch icon blues! MacBooster aids the Macintosh File Manager by continuously monitoring disk access. Those files that are accessed most frequently are stored in a cache or memory buffer. Each time the Mac needs to go to disk, it first checks the cache to see if the needed information has been requested before. If it has, the data will already be in memory and the information can be utilized immediately. If not, the data will be added to the cache where it will be readily available the next time it is needed. Easy to use. Requires 512k Mac.
